

Good and bad behaviour at home

My name is Apple Wong. I live in Shenzhen. I live with my mum, dad and sister. My father is an engineer. He works hard to reduce human errors. My mum is an accountant. She is responsible for the company's financial and tax matters. My sister is a student. I would like to share my family's good and bad behaviour.

First, I want to share about the good behaviour at home. My sister does her homework quickly in her bedroom after school. My mum feels joyful because my sister always finished her homework late when she was in primary school. But now she does it more quickly. I feel pleased because I like to do my homework in a quiet place. My mum eats her meal quietly in the dining room in the evening. My dad talks on the phone softly in the bedroom at ten o'clock. My sister feels relaxed because she needs to sleep! My mum does the housework quickly in the living room in the afternoon. She feels tired but she can have an afternoon nap. I wait patiently in front of the bathroom door. My sister is taking a bath in the bathroom. She needs to be faster.

Then, I want to share about the bad behaviour at my home. My dad shouts at my sister in the living room in the evening. My sister feels upset. My dad should talk to my sister softly. My sister takes a shower slowly in the bathroom in the evening. My dad is angry with her. She should take a shower faster. My mum speaks to me rudely in the living room. I am disappointed. She should talk to me politely. My sister goes to bed late because she always watches TV till eleven o'clock. And she watches TV at a high volume. It is bad for her health. I am upset. She needs to go to bed early. I do my homework slowly in the bedroom. My mum is angry with me. I need to do my homework faster.

I like my family because they are nice to me. I think I don't behave well at home because I need to do my homework faster and I should help my mum do the housework. I can do better at home.
