

Good and bad behaviour at school

24th October, 2017

Dear Andy,

How are you? I go to Ma Kam Chan Primary School. My school is in Sheung Shui. I am in class 5D. Do you like going to school? I like going to school very much because most of my classmates behave well at school. Let me tell you about them.

First, I will talk about good behaviour at school. In the P.E. lesson, we line up quietly and fast. We never waste any time because we want to have more time for playing sports games. We are all sporty. At recess, some classmates eat their snacks quietly. Our teachers feel pleased. Also we always bring the healthy snacks to school, like apples, cookies, cupcakes etc. so we are very healthy and strong.

Now, let me tell you about the 'bad things' we do. Before the teachers come, some students fight with one another and they run around the classroom. No matter what the class monitor says, they're still running. My class teacher gets mad when she sees that. Some classmates do their homework messily and they get all the answers wrong. Their workbooks are full of 'alien words'. Their handwritings are too bad. I think they should write neatly.

Do you think my classmates behave well at school? I think my classmates behave well at school because they line up quietly. I think I behave well at school because I always help my classmates with their homework. Can you tell me about your classmates?

Please write soon.

Yours,
Erica
