

## **My friend and his family**

My best friend is Cherry. She is eight years old. She lives in a big flat of a building. Tell you a secret- I want to live in a tall building too. She comes to school by MTR. She is hard-working. She has no brothers or sisters. How lonely she is!

Her father is forty-two years old. He is tall and handsome. He is hard-working and tidy. He is a policeman. He works in a police station. He catches bad people. He has a gun that can scare bad people. Her mother is forty-one years old. She is thin and beautiful. She is a teacher. She teaches Chinese in a school. She has some books that are about Chinese. Tell you another secret- Cherry is my old classmate. Her good friends are Tina, Aimee and Sara. But the bad thing is Aimee is a monitress so they don't talk much together during lessons.

She is close to her family. She likes her family very much. She is joyful.
