

When I was in Kindergarten

When I was four years old, I was in kindergarten. My school was in Sheung Shui. It was small and tidy! It's very good!

I could brush my teeth by myself when I was in kindergarten. I couldn't climb the stairs by myself. I thought climbing the stairs was very difficult! I didn't know how to balance my body so I felt scared. Dad helped me solve this problem. My dad was a hero! He taught me to practice going up and down the stairs every day. I overcame this obstacle.

Now I am twelve years old. I can do anything. I can climb the stairs and tie my shoelaces by myself now. I am very delighted!
